

Founded in 2001 and with offices in Atlanta and New York, Caymus Equity Partners is a leading private equity firm focused on control transactions in the lower middle market. We invest in profitable companies with significant upside potential where the owners and management teams are seeking a value-added partner to help fuel growth.

Our partnerships center around mutual culture, business values, and goals as the foundation for driving sustainable growth and value for all stakeholders. We strive to work with management to develop and refine strategy and provide support while leaving day-to-day execution to the operators of the business.
